## This Week's Learning

The Brambles have really enjoyed our nature topic this week where we have been exploring rainbows.

We have discovered that a rainbow is created when sun light and water meet in the sky, creating a bend that then splits into the seven separate colours.

We have been using our construction resources to create various rainbow structures, rainbow ice creams and rainbow crowns.

We performed our own rainbow science experiment on the art table using coffee filters and water, it was very exciting to investigate the colours moving over the arc. Perhaps at home you could try this experiment.

While the sun was shining in the garden, we used some glass prisms to create our own rainbows. We made rainbows on the playground, our friends' jumpers and the benches.

To support our number recognition and turn taking skills we also created hopscotch games and number stepping stones in our playground using chalk.

As the weather begins to get warmer please ensure that your child has had sun cream applied before they come into Brambles.

We supply a legionnaire's sun hat while they are in the setting and will re-apply Nivea kids 50+ sun cream at 12.00pm if they are here all day.

**Our number of the week:** 7

**Our key words:** Rainbow, multi-coloured, sunlight, water droplet, arc and refraction.
